

Customer Portal Project - Delivery Guidelines

Project Management Office (PMO) | Version 1.2 | Issued 1 May 2026

1. Roles

- Product Owner: Hana
- Engineering Lead: Majed
- Security Reviewer: Dana
- PMO contact: pmo@nakheeltech.example

2. Launch approval

The portal may launch only after **both** of the following sign-offs: (a) a completed **Security review**, and (b) the **Product Owner's** sign-off. Engineering sign-off alone is **not sufficient**.

3. Test data

Only **anonymized or synthetic** data may be used in test environments. Copying real customer records into any test environment is **strictly prohibited** under the company's data protection rules.

4. Communication

- A follow-up email must be sent to all attendees within **24 hours** of each project meeting.
- Email subject format: **[Portal] Topic - Date**
- Every action item must have an owner and a due date. If either is missing, mark it as **'To be confirmed'** and raise it in the next meeting.

5. Escalation

Any blocker lasting more than **3 working days** must be escalated to the **PMO**, copying the Product Owner.

6. External announcements

No external announcement about the launch may be made before the Security review is completed.
